EXPERIENCE

Product and data track record

Technical Supervisor — APR 2024 – PRESENT
Pluma Genetics

I own the company's digital front: website, internal app, executive dashboards and technical support.

- Maintain the institutional website in React with TypeScript and API integration.
- Built and maintained an internal corporate app in React Native with Expo.
- Built Power BI dashboards covering profitability, costs, targets and market share for the board.
- Coordinated technical support and the roadmap of internal products.

Management Data Analyst — SEP 2023 – APR 2024
Pluma Genetics

Turned operational data into dashboards and tools used by managers and sales representatives.

- Built interactive dashboards and executive views in Power BI.
- Automated internal routines to cut manual work on reports.
- Developed and maintained the company website.
- Built support tools for sales representatives.

Administrative Assistant — JAN 2023 – SEP 2023
Pluma Genetics

Worked on logistics with reporting, Excel/VBA automation and process improvement.

- Built Power BI reports to track operations.
- Developed and optimised spreadsheet automation with VBA.
- Supported delivery logistics efficiency.

IT Infrastructure Support — MAR 2022 – DEC 2022
Solinftec

Network, hardware and end-user support in a corporate agtech environment.

- Assisted with network infrastructure maintenance.
- Managed and organised IT equipment.
- Diagnosed and resolved incidents on corporate laptops.

PROJECTS

Selected projects

PLUMA GENETICS · INTERNAL TOOL

Corporate dashboard in React and Node.js

Custom application with a React interface, Node.js API and faster queries than the previous indicator views.

Consolidated profitability, cost, target and market-share metrics in a single panel.

React · TypeScript · Node.js · APIs

PLUMA GENETICS · INTERNAL APP

Corporate app in React Native

Expo app that replaced manual steps in internal routines, consuming company APIs.

Standardised operations previously handled through spreadsheets and chat.

React Native · Expo · APIs

PLUMA GENETICS · WEB PRODUCT

Institutional website in React

Maintenance and evolution of the company website, focused on performance, content clarity and integrations.

Centralised the company's digital presence and simplified content updates.

React · TypeScript · CSS · APIs

OPEN SOURCE · APPLIED STUDY

Public GitHub projects

Study repositories in React, TypeScript and applied AI: a RAG example, a tensor playground and an HLS downloader.

Open code available for direct technical review.

React · TypeScript · Python · Node.js

STACK

Skills by area

Front-end

- React
- TypeScript
- Semantic HTML
- Responsive CSS
- API consumption

Back-end / APIs

- Node.js
- REST integrations
- Dashboard data modelling

Mobile

- React Native
- Expo

Data / BI

- Power BI
- Executive metrics
- Management analysis
- Excel/VBA

AI / Automation

- RAG
- Embeddings
- LangChain

Tooling

- Git
- GitHub
- Playwright

EDUCATION

Academic background and continuous learning

Postgraduate in Applied AI Engineering

APR 2026 – APR 2027

Hands-on applied AI: RAGs, embeddings, assistant customisation, context memory, MCP, LangChain and Neo4j.

In progress

Associate Degree in Systems Analysis and Development

FEB 2022 – DEC 2023

Universidade Norte do Paraná

Completed.

Completed

Power BI Specialisation

JAN 2023

Ninja do Excel

Dashboards and data analysis.

Python Fundamentals

FEB 2023 – MAY 2023

SENAI

Programming fundamentals in Python.

Azure Data Fundamentals (DP-900)

MAY 2023 – JUN 2023

SENAI

Data and cloud computing concepts.

Oracle Programming - Java Foundations

MAY 2023 – JUL 2023

SENAI

Programming basics with Java.

CERTIFICATES

Certified courses

- Cloud Data Deployment and Analysis - Microsoft DP-900
- Python Programming
- Oracle Programming - Java Foundations
- Network Fundamentals
- Data Structures and Algorithms
- Essential Programming Logic
